

A green-tinted collage of images related to transportation and industry. It includes a private jet, a BNSF freight train, and a modern industrial building. A large white asterisk is overlaid on the left side of the collage.

BUSINESS MOVES HERE

A public-private collaboration with the City of Gardner, Kansas and New Century AirCenter, the EDC is responsible for landing businesses and driving growth. The EDC packages, markets and sells the region locally, regionally, nationally and beyond.

An ideal location for industrial, warehouse and distribution facilities – as well as the ancillary services like retail and restaurants that support those businesses, our location is a central distribution point with national and international access to transportation of goods via land, air and rail.

The EDC's Mission:

Facilitate **investment and economic growth** in the City of Gardner and New Century AirCenter by enabling the **retention and expansion** of existing businesses and by attracting targeted businesses that will contribute to the economic expansion of the region and the **quality of life in our community. Create opportunities** to match investors with development projects.

Become an Investor

Your return on investment provides your company with access to information, prestige and recognition, as well as networking opportunities. Since both public and private funds are necessary to ensure the EDC can continue to achieve its mission, we invite you to join our efforts.
